MINAHIL HASAN

SOFTWARE ENGINEER

✉ minahilhasanofficial@gmail.com

www.linkedin.com/in/minahilhasan

SUMMARY

Highly motivated and detail-oriented Software Engineer with a solid foundation in software development, object-oriented programming, and agile methodologies. Experienced in developing web applications through academic projects. Strong problem-solving skills, a quick learner, and passionate about building efficient, user-focused solutions. Eager to apply technical knowledge in real-world settings and grow within a collaborative and innovative development team.

EDUCATION

Bachelor of Science in Software Engineering (BSSE) - 3.92 CGPA   **2020– 2025**

- International Islamic University, Islamabad (2020 - 2022)

- Virtual University of Pakistan (2022 - 2025)

WORK EXPERIENCE

U Devs

Project Manager/Remote   **October 2025 - Present**

- Trained interns and guided them
- Lead a group of 10-15 interns and successfully managed to create projects by each of them.

U Devs

MERN Stack Intern/ Remote   **October 2025 - November 2025**

Frontend Intern/Remote   **August 2025- October 2025**

- Took training related to front end development and MERN Stack
- Completed all tasks assigned to me
- Attended team meetings with my peers

Elevvo Pathways   **August 2025- Sep 2025**

Frontend Developer Intern/Remote

- Completed required tasks assigned to me using HTML, CSS, JavaScript and Bootstrap.

SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap, Tailswind css, Streamlit

Backend: Node js, MYSQL, Sqlite 3, PostgresSQL, Python

Tools & Platforms: Git, GitHub, VS Code, Canva

Other Skills: API Integration, Cross-Browser Compatibility, Performance Optimization

PROJECTS

OpenAI API based Legal Application Generator for Court Filings (2024-2025)

Tools used: Streamlit (frontend), Python (backend) and sqlite3 (database).

I created this project for my Final Year Project of my degree. This software aims to generate legal applications from presaved templates. Enter your case details and get an appropriate template, fill in some placeholders and an application according to your case is generated. Lawyers can also register to add new templates to the system and can edit or delete the templates they have added.
